About the Restaurant: A sanctuary, a place to relax in elegant, but casual and laidback surroundings. Located in a charmingly converted building, the modern minimalist setting with its casual furniture adds a bit of class to Sukhumvit Soi 11. The food is Italian, but Contrazi proudly proclaims it is a place where 'tradition meets innovation.' The comprehensive and original menu provides snacks, pizzas and pastas, bargain set lunches, and a complete list of a la carte items. There is a wood-fired pizza oven; a large and comprehensive wine list, and an outdoor terrace for those who want to eat and drink while watching the action on Soi 11. The set lunches, particularly the 'lunch' pizza at B189++, are popular with shoppers and business people. The outdoor terrace is ideal for those seeking a beer and a quality snack. For large parties, the upstairs room provides large and elegant surroundings. Contrazi is a restaurant with something for everyone, regardless of the time of day.
