Corkage: B300

Smoking Area: Yes

Private Rooms: No

Entertainment: No

Parking: Behind restaurant

Credit Cards: AE, V, MC, DC, JCB

Branches: None

About the Restaurant: This is one of the best places in Bangkok to find a reasonably priced steak. Cooked to order on a piping hot grill, they are vastly superior to what is served in most places. Although steaks are the most popular items on the menu, there are numerous other choices, including some great kebabs and outstanding apple pie. Tenderloins is popular as an after work hangout for drinks, pool, and a meal. It is also popular with families on Sundays when they pull out all the stops with their 'all you can eat buffet' with loads of goodies available from the grill. At B395+ for adults, B220+ for 6-12 year olds, and free for the under 6 crowd, this has got to rank as one of Bangkok's best dining bargains. Tenderloins is about to undergo a facelift, but we are confident it will be as good or better than before when the dust settles. In the meantime, be sure to phone to see if they are open.
